Deconectați aparatul de la sursa de alimentare înainte de a-l curăța.

Îndepărtați cu grijă praful. Folosiți o cârpă moale și curată, umedă, cu apă și săpun. Ștergeți cu o cârpă curată.

Nu utilizați niciodată produse abrazive (pudră, vată de oțel) sau solvenți.

Pentru produse cu înveliș textil:

Materialul produsului are o tendință naturală de a se scămoșa. Acesta nu este un defect dacă:

- Scămoșarea poate fi îndepărtată ușor sau se reduce în timp.
- Cantitatea scamelor nu afectează semnificativ estetica produsului.

Material textil acoperit cu PU:

Materialul textil acoperit cu PU este prin natura sa sensibil la sebum și transpirație: curățarea frecventă a zonelor expuse trebuie efectuată folosind un produs non-acid, cum ar fi săpunul de Marsilia.

Pentru toate produsele:

Un produs își va schimba în mod natural forma și aspectul pe măsură ce căptușeala se lasă sau se deplasează în timp.

Pentru a prelungi forma produsului și a distribui uniform uzura, se recomandă insistent:

- Întoarceți pernele în mod regulat, dacă este posibil.
- Neteziți suprafața șezuturilor imediat după o utilizare prelungită și masați pernele pentru a le restabili umflarea.

Un produs relax clasic poate fi așezat lângă un perete. Cu toate acestea, este necesar să se asigure o distanță de cel puțin 0,3 m față de acesta pentru a putea utiliza corect produsul.

فصل الجهاز عن مصدر الطاقة قبل تنظيفه.

أزل الغبار بعناية. استخدم قطعة قماش ناعمة ونظيفة مبللة بالماء والصابون. جفف بقطعة قماش نظيفة. لا تستخدم أبدًا أي مواد كاشطة (بودرة، صوف فولاذي) أو منيبات.

للمقاعد المغطاة بقماش:

يميل نسيج مقعدك إلى التكتل بشكل طبيعي. لا يُعد هذا عيبًا إذا:

- سهولة إزالة التكتل أو بهتانته بمرور الوقت،
- عدم تأثير عدد التكتل بشكل كبير على جمالية المنتج.

النسيج المغطى بطبقة من البولي يوريثان:

النسيج المغطى بطبقة من البولي يوريثان حساس بطبيعته للدهون والعرق. يجب تنظيف المناطق المكشوفة بشكل متكرر باستخدام منتج غير حمضي مثل صابون مارسيليا.

لجميع المقاعد:

يتغير شكل المقعد ومظهره بشكل طبيعي مع ترحل الحشوة أو تغيرها بمرور الوقت. لإطالة عمر منتجك وتوزيع التآكل بالتساوي، يُنصح بشدة بما يلي:

- قلب الوسائد بانتظام، إن أمكن.
- تنعيم سطح المقاعد فورًا بعد الاستخدام المطول وتدليك الوسائد لاستعادة انتفاخها.
- يمكن وضع مقعد الاسترخاء الكلاسيكي على الحائط. مع ذلك، من الضروري ترك مسافة لا تقل عن 0.3 متر بينه وبين الكرسي لفردته بشكل صحيح.

DE

Trennen Sie das Gerät vor der Reinigung von der Stromversorgung.

Den Staub vorsichtig entfernen. Verwenden Sie ein weiches, sauberes, feuchtes Tuch mit Seifenwasser. Mit einem sauberen Tuch abwischen.

Verwenden Sie niemals Scheuermittel (Pulver, Stahlwolle) oder Lösungsmittel.

Die textilbeschichtungen der produkte

Das Material Ihres Produkts neigt naturgemäß zur Pillingbildung. Dies ist kein Mangel, solange:

- Die Knötchenbildung lässt sich leicht entfernen oder verblasst mit der Zeit.
- Die Anzahl der Pillen hat keinen signifikanten Einfluss auf das Aussehen Ihres Produkts.

PU-Beschichtungen:

PU-Beschichtungen sind von Natur aus empfindlich gegenüber Talg und Schweiß: Je nach Nutzung sollten exponierte Stellen häufig mit einem nicht-sauren Produkt wie z. B. Marseiller Seife gereinigt werden.

Für alle Produkte

Durch das Durchhängen oder Verrutschen der Polsterung verändert sich die Form und das Aussehen eines Produkts im Laufe der Zeit naturgemäß.

Um die Bauschraft Ihres Produkts zu erhalten und den Verschleiß gleichmäßig zu verteilen, wird Folgendes dringend empfohlen:

- Die Kissen nach Möglichkeit regelmäßig wenden.
- Die Sitzflächen sollten unmittelbar nach längerem Gebrauch geglättet und die Kissen massiert werden, um ihnen ihre ursprüngliche Form zurückzugeben.

Ein handelsüblicher Relaxsessel kann an einer Wand aufgestellt werden. Zum ordnungsgemäßen Ausklappen des Sitzes ist jedoch ein Mindestabstand von 0,3 m zur Wand erforderlich.

EN

Disconnect the appliance from the power source before cleaning it.

Carrefully remove the dust. Use a soft and clean damp cloth with soapy water. Wipe dry with a clean cloth.

Never use an abrasive product (powder, steel wool) or solvents.

For products with textile covering:

Your product fabric will have a natural tendency to pill. This is not a defect if:

- *Pilling can easily be removed or fade over time.*
- *The number of pills does not significantly affect the aesthetics of your product.*

PU coated textile:

The PU coated textile is by nature sensitive to sebum and sweat: frequent cleaning of the exposed areas is to be carried out using a non-acid product such as Marseille soap.

For all products:

A product will naturally change shape and appearance as the padding sags or shifts over time. In order to prolong the shape of your product and evenly distribute wear, it is strongly recommended:

- *Turn the cushions over regularly, if possible.*
- *To smooth the surface of the seats immediately after prolonged use and to massage the cushions to restore their swelling.*

Classic relax seat can be placed against a wall. Nevertheless, it is necessary to provide at least 0.3 m distance with it in order to be able to deploy your seat correctly.
