Dishwasher safe
(basket and tray)

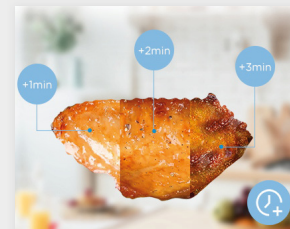

HeatXpress Technology

With a patented structural design, it creates faster and more powerful air circulation to achieve an evenly golden crispy texture and delicious taste.

One-Touch Cooking

You can easily start one of the 7 cooking programs directly with just the push of a button. This means your dishes will be ready in no time.

FlexiCook Function

You don't need to stop or wait for cooking to finish. You can extend the cooking time in 1-minute increments. Even after cooking, you can adjust the crispy level to achieve your desired golden texture. The air fryer speeds up heating and enhances air circulation, delivering the perfect golden and crispy result quickly.

*Compared with deep fried. Tested in Midea lab with 300 gram of fresh fries.
