## Please Attention:

1. The design of the basket bottom is not flat, there are three concave stripes on the basket bottom, it is to increase the force area.
2. The 2nd and 3rd layer of the basket will be smaller than the big basket, when loading the screws, please slightly harder to tighten the distance between the basket and the pole.
3. When installing the 4th-layer trolley cart, please refer to the steps for the 3rd-layer trolley cart to ensure proper installation.
